

THE NEW AWARD WINNING\*

**primo®**

**PIPETTING TECHNOLOGY JUST GOT BETTER WITH THE primo®  
INNOVATIVE PIPETTE CONTROLLER**

The no nonsense pipette controller.  
Innovative, robust, ergonomic design and comfortable in the hand. primo® effectively controls the input and output of liquids in glass or plastic pipettes.

No need to worry about recharging every day.  
Using a standard PP3 battery or a rechargeable the primo® is capable of a minimum of 10,000 cycles or a minimum 14 days non stop operation.

No speed control switches  
The user has full control of the speed of the liquids both in and out of the primo® using the ergonomic control buttons.

Ergonomic design

Sealed buttons for superb fluid control

Quiet

Powerful motor

#### Technical Specifications

Battery	PP3 or Rechargeable
Battery Life	minimum of 10,000 cycles of continuous use
Overall Weight	175gm
Filter	Hydrophobic 1µm
Outer Case Material	ABS
Nose-Cone Material	Polypropylene
Pipette Holder	Silicone
Pipette Types	Plastic or Glass 1-100mL

The **primo®** is CE marked to Low Voltage directive 73/23EEC and Electromagnetic Compatibility directive 89/336EEC

#### ACCESSORIES

- EP-101 Replacement 1µm filter, pack of 5
- EP-102 Sterile 1µm filter
- EP-103 Replacement Silicone Pipette Holder
- EP-104 Replacement nose cone
- EP-105 battery charger
- EP-106 wall holder for **primo®** pistol model
- EP-107 PP3 battery pack of 3
- EP-207 wall holder for **primo®** In-Line model

#### ORDERING DETAILS

- EP-100 **primo®** Pistol model complete with PP3 battery, 1µm hydrophobic filter and instruction manual.
- EP-200 **primo®** In-Line model complete with PP3 battery, 1µm hydrophobic filter and instruction manual.
